Official Mining Guide (Windows NVIDIA)

This guide describes how you can start mining Veggies on the Veggiecoin blockchain. Miners earn Veggies (VEGI) for POW mining using the HMQ1725 algorithm. You need to download the "Mining Wallet" and "CCMiner" to begin mining.

3. Start Mining

Configure CCMiner

1- Getting a Wallet Address

🌪 Veggie	- Wallet					—		\times				
File Setti	ngs Help											
	iew 🔗 Send	Receive	Transactions									
Use this form to request payments. All fields are optional .												
Label:												
Amount:		÷ VI	GI 🔻									
Message:												
	Reuse an existing receiving address (not recommended)											
	🖄 Request payment 🛛 🛇 Clear											
Request	ed payments h	istory										
	Date	Label		Message	R	equested (\	/EGI)					
Ø She	ow 🛛 🛇 Rem	ove										
	VEGI HD 💕 🖋											

1. DOWNLOAD and Open the "Mining Wallet" from Veggiecoin.io

2. Wait for the Blockchain to sync and click "Receive" > "Request Payment"

3. In the pop up window, click "Copy Address"

2. Configuring CCMiner

- 1. DOWNLOAD and Unzip (with Winzip or 7zip) CCMiner
- 2. Open the CCMiner Folder

3. Copy any of the Files starting with "RUN" and rename it to "RUN-VEGGIE-HAPPYPOOL"

3. Connecting to a Pool

1. Right click and "Edit" the "RUN-VEGGIE-HAPPYPOOL" file, and replace the contents with:

ccminer-x64 -a hmq1725 -o stratum+tcp://stratum.happypool.co:3700 -u WALLETADDRESS -p c=VEGI,stats -cpu-priority 3pause

2. Change "WALLETADDRESS" to the address you copied from the Mining Wallet and press "File" > "Save".

3. Double click "RUN-VEGGIE-HAPPYPOOL".

-- You are now mining! --

Most pools pay coins within the first few hours. It may take some time for them to appear in your wallet, at first.

4. (Optional) Go to https://happypool.co/?address=WALLETADDRESS to track your mining progress or view the Veggiecoins you have mined in real time.

Please direct any questions or support issues to the discord channel. We love to help!
